

Recommendations
Conference of Egyptians Abroad
Cairo - July 2009

- Participating in the election process for the Presidency and the General Referendum
- Considering the possibility of representing the absentees in the legislative and parliamentary forums
- Reviewing the initiative presented by the Egyptian American Association – Building Bridges – that contains of political , economic and social aspect

- Achieving the objective of Interaction with 2nd and 3rd generation, we do recommend a strategic plan, to include annual visits and regular meetings for them in their homeland.
 - The plan to be put together with all related entities (tourism , aviation, youth , communication, culture, media and manpower) taking into consideration the necessity of regular communication with representatives of associations abroad .

- Necessity of holding similar conferences regularly –, with objective of increasing the participation, strengthening, boosting the relations between those abroad and their homeland.

- Revisiting the media policy giving more space for more programs addressing the Egyptians abroad.

- Necessity of including meetings, with the Egyptian community, on the visiting agendas of the officials visiting the country.

- Activation the process of registration within the diplomatic missions and also on the website of the Ministry of Manpower and Migration , that leads to the accuracy of the data (numbers and contacts)

- Taking immediate steps to launch a unified Arabic language learning program to be broadcasted through the satellites channels , with the cooperation of Ministry of Communication and Technology

- Technical assistance presented by the diplomatic missions aboard to the associations to reform their Board of Directors.

- The associations and the communities abroad should be taking a more positive and effective role for promoting tourism for Egypt , the Tourism Promotion Agency and its offices abroad should support them with all needed information and facilitations , to attract more foreign tourists
- Summarizing the discussions and sessions of this Conference , with the interactions of the Ministers in their sessions and publish it on their websites, and also of the Ministry of Manpower and Migration (audio -visual)
- Allocate a suitable space on the websites of the service ministries , with all the services provided and how to obtain and proceed
- Promoting investment projects in the field of new and renewal energy
- (solar and wind) , taking the benefit of knowledge of the Egyptian expertise, with the assuring of presenting facilitation to attract the more Investment
- Professionals conferences to be held in different sectors , first to begin with is a conference for scientists , for scientific interaction to benefit the research and the researchers in their homeland
- Allowing the Egyptians Abroad to share in the establishments of the educational buildings.
- Formation of a joint committee from Ministry of Manpower and Migration and Investment to follow up the implementation of those recommendations.
