

Interaction

First I want to extend my thanks and appreciation for your active participation at our conference held under the Auspices of President Hosny Mubarak. Your positive participation, discussions and presentations during the three days conference and your thrill for your home country deeply touched my heart.

Realizing the Interaction theme and out of care, love and attention, a department was set at the migration sector at your service.

If you have problems, inquiries, suggestions in all fields of interest

(Investment, education, development and welfare)

We welcome receiving your calls and e-mails on:
